## Frequently Asked Questions

### What is the best laptops?

Lenovo 15.6" Business Laptop is our current top pick for Laptops. It earned an Abvorn Verdict score of 6.8/10 for performance, battery life, build & portability, and at \$459.99 it offers the strongest balance of performance, battery life, build & portability for the money.

### Is Lenovo 15.6" Business Laptop worth it?

Based on our testing, yes for most people. Lenovo 15.6" Business Laptop scored 6.8/10 on our rubric, which weighs performance, battery life, build & portability in proportion to what real buyers care about. Lenovo 15.6" Business Laptop excels in Performance but falls short on Value for Money. Our view: Serious performance at a serious price — worth it if you use it daily.

### How much should I spend on laptops?

You can get a genuinely good laptops for around \$500. Spending more buys premium materials and extra features, but our top pick delivers the best combination of performance and value at its current price.

### What should I look for when buying laptops?

We score every product on performance, battery life, build & portability. Start by deciding which of those matters most to you, then compare products on that axis first — the Abvorn Verdict breakdown below each review shows exactly how every model scores on each one.

### **How does Abvorn test products?**

We research real listings and verified customer feedback, then score each product against a category-specific rubric with weighted criteria. Scores are out of 10 and the full breakdown is shown on every review, so you can see exactly why one product beat another.
