How We Chose These Models (Proof)

Each vacuum was evaluated against five core criteria:

1. **Suction Power** – Measured in Pascals (Pa) where higher numbers mean better pick-up of debris and pet hair.
2. **Navigation Tech** – Laser-based LIDAR or camera-based SLAM for efficient, repeat-able coverage.
3. **Battery Life** – Runtime per charge; longer runs mean fewer interruptions.
4. **Mopping Capability** – Presence of a water tank and vibrating pad for light-mopping hard floors.
5. **Self-Empty Dock** – Auto-emptying bin reduces maintenance frequency.

The Roomba 115X Combo with AutoEmpty Dock scored highest across suction, navigation, and the convenience of a self-empty base, making it the best overall performer. The Shark AI Ultra delivers the strongest suction in its price tier, while the base Roomba 115X Combo offers the essential cleaning power and mopping at the lowest cost.
