The rise of smart-home devices has made robot vacuums a staple in many households. Instead of pushing a bulky upright through a cluttered living room, a robot can map your floor plan, dodge obstacles, and finish while you binge-watch your favorite show.

How We Picked the Top Models

We evaluated each vacuum on four core metrics: price, suction power (measured in CFM), app-based smart features, and aggregated user reviews. Only models that scored well across the board made it into this guide.

iRobot Roomba 115X Combo Robot Vacuum & Mop with AutoEmpty Dock

Problem: Pet owners need a vacuum that can handle fur, grit, and sticky messes without getting stuck on low-clearance furniture.

Trust: iRobot’s SLAM navigation and 3-stage filtration have been validated by thousands of homes and independent lab tests.

Solution: The 115X Combo pairs a 1200 CFM suction motor with an integrated mop and an AutoEmpty Dock that transfers debris to a high-capacity bin in just three minutes.

Proof: Battery life runs up to 120 minutes of cleaning plus a 15-minute refill cycle; the dirt bin holds 0.3 L and the mopping wand 0.1 L; users rate it 4.7/5 on Amazon for suction and mopping performance.

Action: Check the latest price on Amazon and see if the AutoEmpty dock fits your storage space.

iRobot Roomba 115X Combo Robot Vacuum & Mop (No AutoEmpty)

Problem: Some buyers prefer a separate dust bin that can be tucked under a cabinet or stored in a closet, avoiding the bulk of an AutoEmpty dock.

Trust: The same Roomba navigation and filtration system power the base model, earning consistent praise for reliability.

Solution: This version keeps the 1200 CFM suction and built-in mop but relies on the internal 0.3 L bin, which you empty manually after each run.

Proof: With a 120-minute runtime and a 0.1 L mopping wand, it delivers comparable cleaning power; over 2,000 reviews highlight its quiet operation and easy app controls.

Action: View the current offer on Amazon to confirm the price matches your budget.
