Cleaning floors can eat up hours each week, especially when you have pets or high-traffic areas. A robot that both vacuums and mops sounds ideal—until you realize the dustbin fills up after every run and you're stuck emptying it manually.

That's where a self-empty dock changes the game. iRobot has earned trust over decades for reliable navigation and strong suction, and its 2026 lineup backs that reputation with AI-driven vSLAM and sonic-vibration mopping.

The **iRobot Roomba 115X Combo with AutoEmpty Dock** solves both problems: powerful 1,800 Pa suction, adjustable three-level mopping, and a dock that stores up to 60 days of debris before you need to lift a finger.
