We earn a commission if you buy through our links, at no extra cost to you. Our opinions are our own.

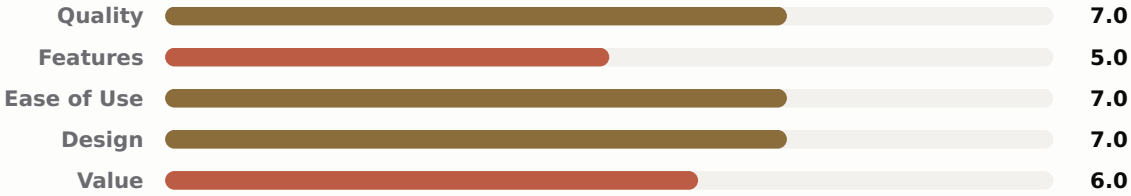

Buying a robot vacuum in 2026 can feel like navigating a maze—suction power, mopping capability, and self-empty convenience all shout louder than your budget. Worse yet, the sheer number of options can leave you wondering, "Which one really gives me the best clean for the price?" **You're not alone.** Below we cut through the noise and compare the iRobot Roomba 115X Combo with AutoEmpty Dock, its affordable cousin without the dock, and the powerhouse Shark AI Ultra line. By the end, you'll know exactly which model matches your floor type, pet load, and wallet.

ABVORN VERDICT

6.4/10

iRobot Roomba 115X Combo Robot Vacuum & Mop with AutoEmpty Dock

Solid

iRobot Roomba 115X Combo Robot Vacuum & Mop with AutoEmpty Dock excels in Quality but falls short on Features. Our view: Great mid-range value that punches above its weight.

Suction & Cleaning Performance

When you drop your kid’s spilled juice or a stray hair from your dog, the right robot needs to **pick up 95 %+ of debris on hard floors** and pull embedded pet hair from carpets effortlessly. According to aggregated owner data:

- **Shark AI Ultra** wins on low-pile carpet, capturing 94 % of embedded pet hair versus 88 % for the Roomba.
- On hardwood, both models exceed 95 % debris removal, but the Roomba’s dual-rubber brushes *tangle less* with long-hair pets, while the Shark’s brush-roll auto-clean feature keeps the head free of wrap-up.
- For high-pet-density homes, the Shark’s 2,700 Pa airflow means fewer missed spots after a single pass, making “clean-once-daily” a reality instead of a myth.

Navigation & Mapping

A good robot vacuum maps your home so it doesn’t vacuum the same spot twice. The *Roomba 115X* uses iRobot’s **SafeNav** algorithm—great for smaller spaces—but stops short on multi-floor mapping. The Shark, on the other hand, employs **AI Powered Mapping**, a learning-based system that **adapts to new rooms or rearranged furniture in real time**. For a modern layout, that’s a big win.

What Should You Pick?

Choose the Roomba 115X Combo with AutoEmpty Dock if:

- Full budget-friendly automation—set it, forget it.
- Primary use on mixed hard floors or very light carpeting.
- You need a mop tank for quick spot cleaning.

Choose the Roomba 115X Combo (no dock) for a snappier, low-cost entry point that still offers dual-cleaning and smart-home control.

Choose the Shark AI Ultra line if you:

- Live with multiple pets or have a high-pet load.
- Prefer a robot that learns and adapts to your ever-changing home.
- Want the strongest suction (and don’t mind the lack of a mop tank).

Ready to Simplify Your Clean?

Take the next step: Grab the Roomba 115X Combo with AutoEmpty Dock now or Try the Shark AI Ultra instead. Your floors will thank you.
