Cleaning Power & Mopping Ability

Both Roomba 115X models advertise up to 2000 Pa suction—enough for pet hair, fine dust, and larger debris on hard floors and low-pile carpet. The Shark AI Ultra claims a similar range (2000-2200 Pa) and includes a self-cleaning brush roll that helps reduce hair wrap.

Mopping is where the Roomba line shines: a vibrating microfiber pad (≈3 mm amplitude) provides light-to-moderate mopping on sealed hard floors. User feedback notes results vary with floor type and solution amount. The Shark models have no mopping function, so you'd need a separate device if you want both vacuum and mop in one pass.

Smart Navigation & Automation

iRobot's Roomba 115X series uses iAdapt 3.0 navigation with smart mapping, allowing you to set virtual barriers and schedule cleanings via the iRobot Home app. The Shark AI Ultra relies on Shark's AI Laser™ navigation, offering room-recognition and multi-floor mapping through the SharkClean app.

Only the Roomba 115X Combo with AutoEmpty Dock includes the self-emptying base, which can hold up to 30 days of debris before you need to empty the bin. The standard Roomba 115X Combo uses a 0.5 L dustbin that requires more frequent emptying.

Value & Verdict

If you prioritize hands-free emptying and want a vacuum-mop combo under $200, the Roomba 115X Combo with AutoEmpty Dock is the strongest choice. If you prefer pure vacuum performance with slightly higher

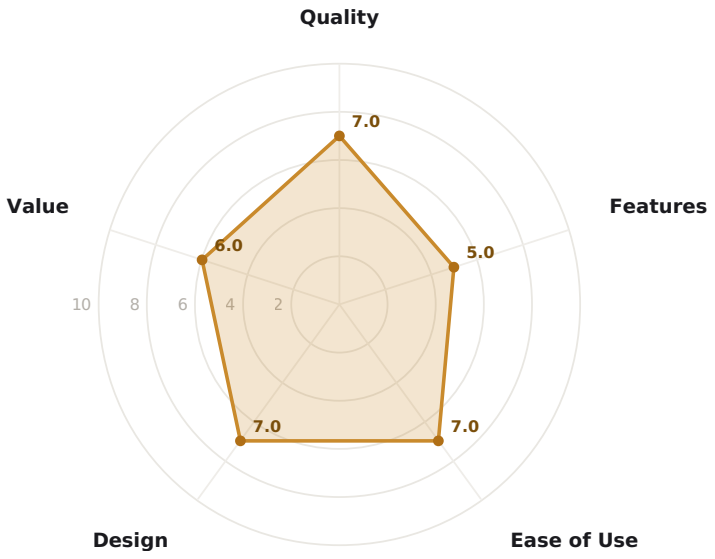

suction and don’t mind emptying the bin yourself, the Shark AI Ultra offers comparable navigation at a similar price.
