What’s New in 2026?

This year’s models focus on three breakthroughs:

- **Suction:** most units now exceed 2,500 Pa on hard floors.
- **Navigation:** lidar-plus-camera fusion gives centimeter-accurate mapping.
- **Self-Empty Docks:** standard on mid-tier models, reducing maintenance to once a month or less.

Battery life has crept up to 150 minutes on eco mode, letting larger homes be cleaned in a single run.
