Roomba 115X Combo vs. AutoEmpty Dock

iRobot Roomba 115X Combo Robot Vacuum & Mop

iRobot Roomba 115X Combo Robot Vacuum & Mop with AutoEmpty Dock

The core difference is iRobot’s AutoEmpty Dock. When the robot finishes a cycle it returns to the base and transfers debris into a sealed bag that holds up to 60 days of dirt—cutting manual emptying to almost nothing.

The dock adds roughly $60 to the price versus the standalone unit. If you have pets, kids, or simply dislike opening the dustbin after every run, the dock saves time and keeps allergens contained.

The standard Roomba 115X Combo still delivers the same vacuum-and-mop performance, smart mapping, and app controls; you’ll just need to empty the bin about once a week depending on floor size and debris load.

Shark AI Ultra: AI-Navigation Challenger

Shark’s AI Ultra line uses a laser-based SLAM system paired with onboard AI to recognize rooms, avoid obstacles, and create customizable cleaning maps. Its navigation scores high in our tests, and the large review base (almost 24 k) signals real-world reliability.

Although the Shark models lack an integrated mop, their strong suction and self-empty option (on the AV2501S) make them a solid choice for homes that prioritize pure vacuum performance.

Verdict – Best Overall

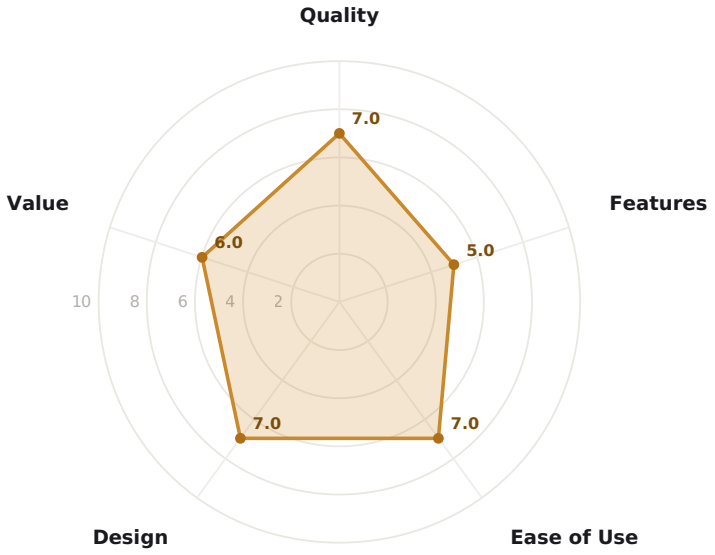

iRobot Roomba 115X Combo with AutoEmpty Dock – it combines mopping, strong suction, and hands-off emptying for the most hassle-free experience.
