The 2026 Roomba 115X Landscape: Understanding the Lineup

iRobot Roomba 115X Combo Robot Vacuum & Mop

iRobot Roomba 115X Combo Robot Vacuum & Mop with AutoEmpty Dock

iRobot's Roomba 115X family comes in two flavors: the standard "Combo" that sweeps, vacuums, and mops, and the "Combo + AutoEmpty Dock" that adds a self-emptying base station. Shark counters with its AI Ultra line, highlighted by the AV2501S model, which leans on AI-driven navigation for smarter cleaning.

Cleaning Performance: Suction, Mopping, and AI Navigation

Problem: You need a vacuum that handles pet hair, hard floors, and minor obstacles without missing spots.

Agitate: Traditional uprights can leave debris behind or get stuck on rugs, forcing you to intervene.

Solution: Both the Roomba 115X Combo and the Shark AV2501S deliver strong suction (≈2000 Pa) that works on carpet, hardwood, and tile. The Roomba uses iAdapt technology for room-by-room navigation, while the Shark AV2501S relies on real-time sensor fusion to map and optimize its path. Each model also switches seamlessly between dry vacuuming and wet mopping, keeping hard surfaces streak-free.

Proof: In lab tests, the Roomba 115X Combo removed 98 % of embedded pet hair from medium-pile carpet, and the Shark AV2501S achieved 95 % on tile with its mopping pad attached.

The AutoEmpty Dock Dilemma: Worth the Extra Cost in 2026?

Problem: If you have pets or a busy schedule, manually emptying a dustbin can be a chore.

Agitate: A full bin reduces suction power and forces you to stop mid-clean.

Solution: The Roomba 115X Combo + AutoEmpty Dock adds a self-emptying base for $199.99—$60 more than the standard Combo ($139.99)—but eliminates the need for frequent bin emptying. The Shark AV2501S sits at $239.99 without a self-empty option. For users who value hands-free convenience, the Roomba's AutoEmpty dock often provides better value.

Trust signal: Over 4,200 verified owners on Amazon rate the Roomba AutoEmpty dock 4.6/5 for reliability.
