In 2026, the gaming mouse market is louder than ever, with flagship models like the Logitech G PRO X3 SUPERSTRIKE, the wireless G PRO X2, and budget-friendly options such as the G305 LIGHTSPEED and G502 HERO vying for your attention. With specs ranging from high-precision 25K sensors to ultra-low latency wireless, the choices can feel overwhelming.

Our gaming mouse buying guide cuts through the noise, comparing performance, price, and real-world usability across these top contenders. Whether you need a lightweight hero sensor for competitive shooters or a feature-rich wireless mouse for marathon sessions, this comparison will help you pick the mouse that truly fits your playstyle.

ABVORN VERDICT

6.4/10

Logitech G PRO X3 SUPERSTRIKE Gaming Mouse - Black

Solid

Logitech G PRO X3 SUPERSTRIKE Gaming Mouse - Black excels in Sensor Performance but falls short on Software. Our view: Great mid-range value that punches above its weight.

Rated from Abvorn's default preference profile (5/10 weight on each factor). Personalise yours at abvorn.com.

Gaming mice have come a long way, and in 2026 the market spans everything from sub-$30 wireless essentials to nearly $200 esports flagships. The right choice depends on your grip style, the games you play, and whether you prioritize raw performance, customization, or value. This gaming mouse buying guide compares five popular Logitech models across price tiers so you can match a mouse to your needs without overpaying.

All five picks below share strong owner ratings (4.6 stars), but they target very different budgets and use cases. Prices and review counts reflect current Amazon listings.

Key Features to Consider

- **Sensor accuracy:** Look for a high-DPI optical sensor with low lift-off distance. Logitech's HERO sensors (12K on the G305, 25K on the G502 HERO) are well-regarded for tracking consistency.
- **Weight:** Lighter mice (often under 80g) suit fast-paced FPS and flick-heavy play; heavier mice with adjustable weights can feel more stable in MOBAs and MMOs.
- **Connectivity:** Wireless LIGHTSPEED models offer near-wired latency, while wired mice remove battery concerns entirely and usually cost less.
- **Button layout:** Extra programmable buttons help in MMOs and productivity; a simpler layout reduces accidental clicks in competitive shooters.
- **Battery life:** Wireless models vary widely. Check rated hours and whether the mouse charges via USB-C or uses replaceable batteries.
- **Shape and grip:** Ergonomic, right-handed shapes suit palm grips; ambidextrous, low-profile shapes suit claw and fingertip grips.
- **Price-to-performance:** Mid-range mice often deliver 90% of flagship feel at a fraction of the cost.

Product Comparisons

Logitech G PRO X3 SUPERSTRIKE Gaming Mouse - Black

Logitech G PRO X3 SUPERSTRIKE Gaming Mouse - Black

The G PRO X3 SUPERSTRIKE sits at the top of this list at $199.99 and targets competitive players who want the lightest, fastest-feeling Logitech experience. It is the newest of the two SUPERSTRIKE models here and carries a 4.6-star rating from 178 reviews, with 4K+ units bought in the past month.

Key Features:

- Premium esports-focused wireless design aimed at low-latency play

- Lightweight, ambidextrous-style shape suited to claw and fingertip grips
- High-end optical sensor for precise tracking
- USB-C charging and modern connectivity
- 4.6-star average across 178 owner reviews

Pros:

- Top-tier responsiveness for competitive shooters
- Premium build and finish at the flagship tier
- Strong recent buyer interest (4K+ in the past month)

Cons:

- Highest price in this roundup at $199.99
- Fewer reviews (178) than established models, so long-term owner feedback is still building
- Minimal extra buttons compared with MMO-style mice

Bottom line: Buy this if you compete seriously and want the newest flagship feel; skip it if you are price-conscious, since the gains over the X2 are incremental.

Logitech G PRO X2 SUPERSTRIKE Wireless Gaming Mouse - Black/White

Logitech G PRO X2 SUPERSTRIKE Wireless Gaming Mouse - Black/White

At $179.99, the G PRO X2 SUPERSTRIKE Wireless is the slightly more affordable SUPERSTRIKE sibling, available in Black/White. It holds the same 4.6-star rating but from a larger pool of 775 reviews, and 2K+ units were bought in the past month.

Key Features:

- Wireless LIGHTSPEED connectivity for low-latency gaming
- Esports-oriented lightweight design
- High-precision optical sensor
- Black/White colorway option
- 4.6-star average across 775 owner reviews

Pros:

- Saves $20 versus the X3 while keeping a similar competitive profile
- More owner reviews (775) for a clearer reliability picture
- Wireless freedom with flagship-grade tracking

Cons:

- Still expensive at $179.99
- Fewer recent buyers (2K+) than the X3
- Limited button customization for non-FPS genres

Bottom line: The better value of the two SUPERSTRIKE models if you want flagship wireless performance without paying the newest-model premium.

Logitech G305 LIGHTSPEED Wireless Gaming Mouse

Logitech G305 LIGHTSPEED Wireless Gaming Mouse

The G305 LIGHTSPEED is the budget wireless standout: $29.49, down from a $49.99 list price, with a HERO 12K sensor. It has the largest review base here at 40,574 reviews (4.6 stars) and 10K+ units bought in the past month, making it one of the most proven mice in this roundup.

Key Features:

- HERO 12K optical sensor for accurate tracking
- LIGHTSPEED wireless with long battery life (rated up to 250 hours on a single AA)
- Lightweight, compact ambidextrous shape
- Onboard memory for storing profiles
- 4.6-star average across 40,574 owner reviews

Pros:

- Excellent value at $29.49 (was $49.99)
- Huge owner review base confirms reliability
- Wireless freedom at a budget price
- Replaceable AA battery means no charging downtime

Cons:

- Older HERO 12K sensor versus the 25K in the G502 HERO
- Small shape may not suit large hands or palm grips
- Only six buttons, limiting MMO-style customization

Bottom line: The best budget wireless pick in this guide; ideal for students, secondary setups, or anyone wanting proven wireless performance under $30.

Logitech G502 HERO Wired Gaming Mouse

Logitech G502 HERO Wired Gaming Mouse

The G502 HERO Wired is a classic ergonomic workhorse now priced at $37.99 (down from $69.99). It carries a HERO 25K sensor, the highest sensor spec in this roundup, and has the most reviews of any product here at 58,897 (4.6 stars), with 10K+ bought in the past month.

Key Features:

- HERO 25K sensor with up to 25,600 DPI
- Ergonomic right-handed shape with thumb rest
- 11 programmable buttons
- Adjustable weight system for tuning feel
- 4.6-star average across 58,897 owner reviews

Pros:

- Best sensor spec here at a low price
- Highly customizable buttons and weights
- Massive review base (58,897) signals long-term reliability
- No battery to manage

Cons:

- Wired only, which some players find restrictive
- Heavier than esports-focused mice even before added weights
- Ergonomic right-handed shape is not ambidextrous

Bottom line: The best wired value in this guide, especially for MOBA, MMO, and productivity users who want buttons and customization on a budget.
