Why Robot Vacuums Are Still Hot in 2026

Autonomous cleaning has shifted from a fun gadget to a household necessity. AI-driven navigation, batteries that last two hours, and integrated mopping mean these robots save time, cut allergens, and keep pet hair under control. Because they work with Alexa, Google Assistant, and Apple HomeKit (via Matter), you can start, pause, or check progress from the couch or while you're out.

How to Compare Robot Vacuums
