Understanding the 2026 Robot Vacuum Landscape

Both iRobot and Shark have placed AI navigation front-and-center. iRobot's Roomba 115X series adds smarter object avoidance and a beefier 2,200 Pa motor, while Shark's AI Ultra line uses a laser-based SLAM system that learns room layouts in seconds. This means you no longer have to pick between "smart" and "powerful." Your decision now hinges on whether you value a **combo unit with mopping and self-emptying** or a **pure-vacuum AI that dominates carpets and hard floors.**
