Introduction

Busy households struggle to keep floors clean while juggling work, kids, and pets. Manual vacuuming eats up time that could be spent elsewhere, and forgetting to empty the bin leads to lingering dust and allergens. A robot vacuum that can vacuum, mop, and empty itself solves these pain points, but choosing the right model requires weighing suction, battery life, smart features, and price.

Product Review

In late 2026 the market offers several strong contenders that combine vacuuming and mopping with self-empty docks. Below we examine four models that appear frequently in owner feedback and spec sheets.
