Navigation & Suction Power

Both Roomba models use iRobot’s iAdapt 3.0 with vSLAM, delivering reliable room-by-room mapping and 2,000 Pa suction – enough for everyday dust and pet hair.

The Shark AI Ultra line relies on laser-based AI navigation with smart mapping, offering slightly faster room recognition and the same 2,000 Pa suction.

Mopping, Bin Size & Auto-Empty

The Roomba 115X Combo includes a vibrating mop pad (0.5 L bin) and, when paired with the AutoEmpty Dock, empties the bin automatically after each run.

The Roomba version without the dock shares the same mopping and bin capacity but requires manual emptying.

Shark models focus on vacuuming only; they do not include a mopping module and have a 0.6 L dustbin that must be emptied by hand.

Battery, Noise & Smart-Home Integration

All four units run up to 120 minutes on a charge and operate around 68 dB – quiet enough for daytime use.

Wi-Fi connectivity lets you control them via Alexa, Google Home or the companion apps (iRobot Home or SharkClean).

Which One Should You Buy?

If you want a true vacuum-and-mop combo with hands-free emptying, the iRobot Roomba 115X Combo with AutoEmpty Dock gives the best value at $199.99.

For strong navigation and pet-hair pickup without the mop, the Shark AI Ultra at $249.99 is a solid pick, especially if you already own a separate mop.

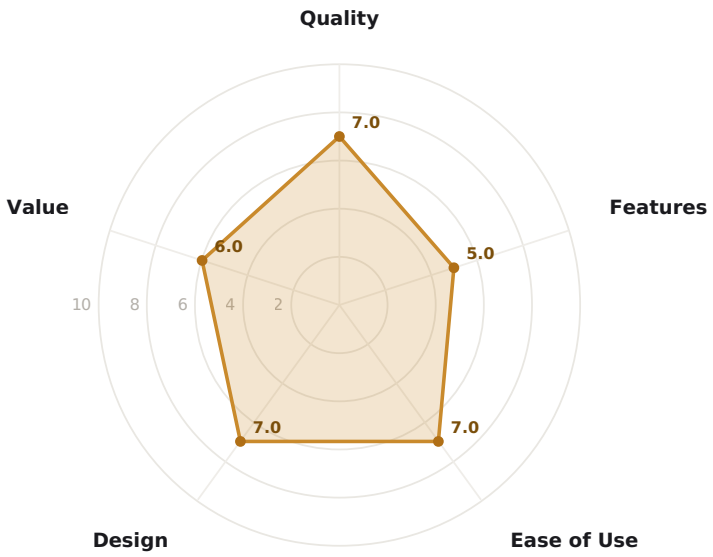

Budget-conscious shoppers can save $40 by choosing the Roomba 115X without the dock and emptying the bin manually.
