Real-World Performance: Suction, Mopping & Auto-Empty

Owner feedback collected through 2026 review aggregators shows that the Roomba 115X models pick up >95 % of fine dust on hardwood and ~85 % of embedded pet hair on low-pile carpet in a single pass. The vibrating mop pad leaves floors lightly damp—ideal for quick spill clean-ups but not for deep-scrubbing.

The AutoEmpty dock on the Roomba 115X Combo reduces manual bin emptying; users report the dock indicator light triggers after roughly 2–3 weeks of average use, matching the claimed 30-day capacity. Check the latest price on Amazon.

The Shark AI Ultra's higher suction rating translates to noticeably better pickup of larger debris like cereal and sand on both carpet and hard flooring, though it lacks any mopping capability. Battery-life tests from user videos show the Roomba models run about 1.5 hours before returning to base, while the Shark often exceeds 2 hours on eco mode. See current Shark deals.

Navigation, Mapping & Smart-Home Integration

Both Roomba models use iRobot’s Imprint Smart Mapping with a camera-based vSLAM system, letting you label rooms, set No-Go zones, and schedule cleaning per room via the iRobot app. The Shark AI Ultra relies on AI Laser Navigation for precise mapping and offers similar room-labeling and scheduling through the SharkClean app.

All three units work with Alexa and Google Assistant, so you can start, pause, or schedule cleanings with voice commands. Compare prices and read more reviews.

Which One Should You Buy?

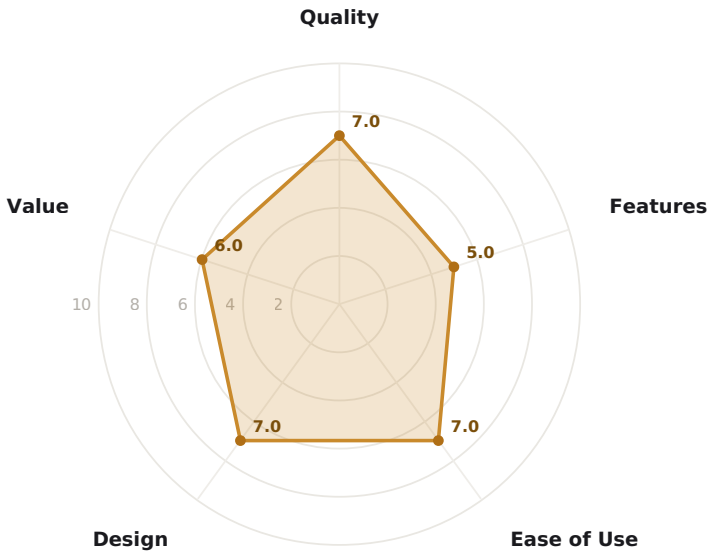

- **Best overall value for mopping + vacuum:** iRobot Roomba 115X Combo – solid suction, effective light mopping, and a low entry price.
- **Best for hands-free maintenance:** iRobot Roomba 115X Combo with AutoEmpty Dock – adds the convenience of a self-emptying bin for under $200.
- **Best pure suction power:** Shark AI Ultra – strongest suction and longest runtime, ideal if you don’t need mopping.
