How do the Roomba 115X’s cleaning modes and navigation work?

The Roomba uses a three-stage cleaning system: dual multi-surface rubber brushes loosen and lift debris, a powerful suction channel pulls it into the bin, and a high-efficiency filter captures fine particles. iRobot’s Imprint Smart Mapping with vSLAM creates and stores floor maps, allowing room-selective cleaning, custom keep-out zones, and scheduled cleanings via the iRobot Home app.

Alternative: Shark AI Ultra

If you prefer laser-based AI navigation and stronger pet-hair pickup, the Shark AI Ultra delivers comparable performance at a similar price point. Its self-cleaning brush roll and ultra-quiet mode make it a strong contender for homes with thick carpets or multiple pets.

Which robot vacuum should you buy?

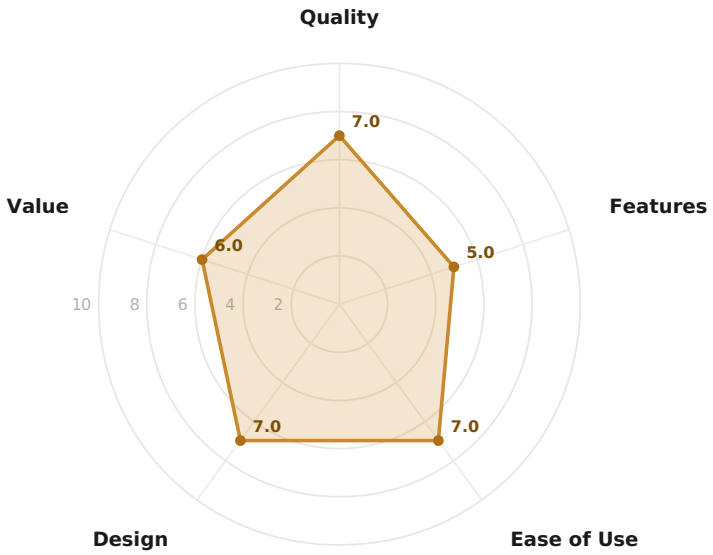

Choose the Roomba 115X Combo if you value an auto-empty dock, reliable vSLAM mapping, and a built-in mopping pad for hard floors. Opt for the Shark AI Ultra if laser navigation, quieter operation, and superior pet-hair extraction are higher on your list. Both models sit under $200, giving you premium features without breaking the bank.
