What to Look For in a Robot Vacuum (2026)

When you compare models, focus on these six decision-makers:

- **Suction power (Pa)** – higher numbers lift pet hair and embedded dirt more effectively.
- **Mopping capability** – a built-in water tank and vibrating pad handle light stains on hard floors.
- **Auto-empty dock** – reduces maintenance; the bin empties itself into a larger base.
- **Navigation tech** – LiDAR or vSLAM AI maps rooms, avoids obstacles, and enables custom cleaning zones.
- **Battery life & recharge time** – determines how large an area can be cleaned per charge.
- **Price-to-performance ratio** – balances upfront cost with long-term convenience and features.

Rating: 4.4 ★ from 5,217 reviewers • 6 K+ units sold in the last month

The Roomba 115X Combo vacuums and mops in a single pass. Its AutoEmpty Dock means you never have to touch the dustbin after a run, and the iRobot Home app lets you schedule cleanings, set no-go zones, and view cleaning maps.

Why it fits you: If you hate emptying the bin after every cycle and want a mop built-in, the AutoEmpty Dock saves time while the mop adds versatility for kitchens and bathrooms.

Shark AI Ultra Robot Vacuum

Price: $279.99 *(affiliate link)*

Rating: 4.6 ★ from 4,800 reviewers • 4.5 K+ units sold in the last month

The Shark AI Ultra relies on powerful suction (up to 2,700 Pa) and Shark's patented self-cleaning brush roll. It uses AI-driven vSLAM navigation to map rooms, avoid obstacles, and create custom zones via the SharkClean app. While it lacks an integrated mop, a separate Shark mop accessory can be added.

Why it fits you: If maximum suction and pet-hair pickup are your top priorities and you prefer to add a mop only when needed, the AI Ultra delivers strong performance with a slightly higher price tag.

Head-to-Head Comparison

Feature	Roomba 115X Combo	Shark AI Ultra
Suction Power	≈2,200 Pa	≈2,700 Pa
