How do I choose between a budget and a premium 4K TV in 2026?

In 2026 the TV market splits clearly: budget 4K sets rely on LED panels and platforms like Fire TV for smart features, while premium models add Mini-LED backlights, higher peak brightness, and design-focused bundles. Your decision hinges on room size, ambient light, how much you value built-in audio, and whether you want a TV that doubles as décor. The three models examined here span that spectrum, letting you weigh price against picture quality and smart-TV convenience.

Connectivity includes three HDMI ports (one ARC), a USB port, and Wi-Fi 5. Sound is delivered by two 8 W down-firing speakers, adequate for casual viewing but benefiting from a soundbar in larger rooms.
